

COOPER STANDARD: FULL-SERVICE SUPPLIER WITH VALUE-ADD IMPACT

You may recognize Cooper Standard for our innovative solutions, but we are more than the products we make. We are a trusted partner and full-service supplier that empowers our customers with world-class products, services, and expertise at every stage of the product lifecycle. Our integrated approach brings together innovative design, advanced analytics, virtual validation, and global production to ensure seamless support and outstanding results at every stage - from initial concept through final production and beyond.

- **Defining Customers' Needs and Goals:** It all begins with a conversation with our experts to assess project requirements and offer strategic guidance. We meet with customers to understand the specific needs of their project and identify options to meet current objectives and anticipate future needs.
- **Design and Development:** Our team of subject matter experts offer deep understanding of product and system architectures and incorporate market-leading materials science and design and development capabilities to optimize solutions. We offer a full spectrum of advanced analysis tools to address exact technical specifications. Together with our customers we define the optimal solution to deliver innovative [sealing](#) or [fluid handling](#) solutions with outstanding product performance that also help improve total system efficiencies.
- **Virtual Validation:** Our suite of advanced digital tools allows us to complete virtual simulations in place of physical testing. This process enables testing of many scenarios providing a more complete analysis with accelerated timelines. Click to learn more about our [advanced analytics](#).
- **World-class Production:** With a presence in over 20 countries, Cooper Standard offers flexibility to produce your products near our customers' manufacturing facilities. This global reach allows us to respond quickly to market demands and provide tailored solutions that meet the unique needs of each region. Our commitment to continuous improvement ensures that every product reflects the highest standards of performance and reliability.
- **Ongoing Service Support:** Our commitment doesn't stop at delivery. A dedicated customer support team remains engaged throughout the process. We work side by side with our customers to anticipate needs and proactively identify opportunities for continuous improvement.

At Cooper Standard, we are committed to our Purpose: *Creating Sustainable Solutions Together* and delivering high-quality innovative solutions to make it easier for our customers. Rely on a partner who understands business at every stage – from concept to completion. Our integrated approach combines innovative design, advanced analytics, virtual validation, and global production capabilities to help ensure seamless support and exceptional results from concept to completion.
